Continuation of Disposition of Claims: Claims **withdrawn** from consideration are 5-8,12-15,23,25,29-31,35-37,53,55-57,60,62 and 70-73.

DETAILED ACTION

Status of Claims

1. Claims 1-48, 53-66, 69-73 are pending.

Claims 1-4, 9-11, 16-22, 24, 26-28, 32-34, 38-48, 54, 63-66 and 69 are rejected.

Claims 5-8, 12-15, 23, 25, 29-31, 35-37, 53, 55-57, 60, 62 and 70-73 are withdrawn from consideration.

Claims 58, 59, and 61 are objected.

Claims 49-52, 67, and 68 are cancelled.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 28, 2008 has been entered.

Election/Restrictions

3. Claims 5-8, 12-15, 23, 25, 29-31, 35-37, 53, 55-57, 60, 62 and 70-73 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on December 20, 2006.

Response to Arguments

4. Applicant's arguments, see page 18, filed April 28, 2008, with respect to the rejection of claims 1-4, 9-11, 16-22, 24, 26-28, 32-34, 38-48, 54, 63-66 and 69 under 35 U.S.C. 102(b) as

anticipated by Sauerberg et al. (WO 01/79150 A1) have been fully considered and are persuasive. The rejection of claims 1-4, 9-11, 16-22, 24, 26-28, 32-34, 38-48, 54, 63-66 and 69 under 35 U.S.C. 102(b) has been withdrawn.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

7. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

8. Claims 1-4, 9-11, 16-22, 24, 26-28, 32-34, 38-48, 54, 63-66 and 69 are rejected under 35 U.S.C. 103(a) as obvious over Sauerberg et al. (WO 01/79150 A1) in view of Pershadsingh et al. (US 6,028,088) and De la Brouse-Elwood et al. (US 6,200,995 B1).

Sauerberg et al. teach the claimed invention at page 3, line 16 to page 4, line 4; page 8, line 1 to page 10, line 3; page 15, line 20 to page 16, line 15; and page 17, lines 23-31. In the compound of general formula (I) the Y substituent corresponds to T-Z-U in the instant compound of formula (I). Sauerberg et al. disclose that Y is alkylaralkyl (see page 3, line 28). Examples of alkyl include methyl, ethyl and isopropyl (see page 4, lines 29 and 30). Examples of aryl include phenyl, naphthyl and the like (see page 5, lines 21-23). The phrase "and the like" is suggestive of using other divalent polycyclic ring-systems (see page 5, lines 21-23 and page 6, lines 1-3).

Pershadsingh et al. (US 6,028,088) and De la Brouse-Elwood et al. (US 6,200,995 B1) each relate to compounds which are PPAR agonists or modulators (see entire disclosures, in particular the background of invention for each reference).

De la Brouse-Elwood et al. define aryl to mean phenyl, 1 or 2-naphthyl, 4-biphenyl, etc. (see column 4, lines 12-34).

Pershadsingh et al. define aryl to mean phenyl, naphthyl, biphenyl, etc. (see column 5, lines 1-16).

One having ordinary skill in the art at the time the invention was made would reasonably have believed that the phrase "and the like" as disclosed by Sauerberg et al. would include biphenyl or other divalent polycyclic ring-systems as disclosed by Pershadsingh et al. (US 6,028,088) and De la Brouse-Elwood et al., since these were common aryl substituents for compounds which are PPAR modulators or agonists.

Allowable Subject Matter

9. Claims 58, 59 and 61 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

10. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
